Profile

Software engineer & computer science graduate with a passion for backend development. Strong Python skills. Always eager to adapt and take on new challenges.

Skills

Backend

Python, FastAPI, Django, SQLAlchemy, pytest

Storages

Postgresql, ElasticSearch, MongoDB, RDS

Infrastructure

Docker, OpenShift, AWS (EC2, ECR, Sagemaker..)

Other

Git, Kafka, RabbitMQ, REST, C#, ELK, Splunk

Professional Experience

03.2021 – Until now
Moscow, Russia

Align Technology Inc, Software Engineer

I am responsible for the performance and deployment of projects in the R&D Data Science team. I am working on the architecture of DS projects in an industrial pipeline on AWS. I run training sessions for team members on best practices in Python. I have implemented a model training framework in AWS Sagemaker and a reusable component for authorization via AD OAuth.

08.2019 – 02.2021
Moscow, Russia

Sberbank

- Lead Developer, Sep 2020 - Jan. 2021
- Senior Developer, Aug. 2019 - Sep. 2020

I was responsible for the backend development part of the DataSupermarket product. I have implemented REST-API integration microservices and ETL processes with specific business logic. I write code with good tests coverage using pytest and selenium. I once designed a testing infrastructure on my own. I mentored new hires and successfully trained them to a high level. Also I've had the opportunity to facilitate daily and retro meetings.

08.2013 – 07.2019
Moscow, Russia

Military service, Software developer / Officer (Lieutenant, Sr. lieutenant, Captain)

Developing desktop applications for processing data in near real time
Technologies: C++, C#, WPF, PostgreSQL, Python

Courses

01.2021 – 07.2021

Python, (Advanced level) at Yandex

05.2020 – 07.2020

Scrum master, Sberbank corporate university

Education

2008 – 2013
St. Petersburg, Russia

Military Space Academy. A.F. Mozhaisky, Specialist Degree

Information technology, Information security of telecommunication systems
